AUDA

WHAT IS IT? Hot Lab Yacht & Design conceived this 63m inside and out for Turkish builder Sarp Yachts.

WHY WE LOVE IT A military-inspired exterior gives way to a warm, organic interior. And while outside and inside appear to have the opposite ethos, they were designed at the same time and hence they gel in their contrapositions. All together, Aouda is characterised by huge outdoor spaces, substantial tender and toy storage and a fresh interior layout with large VIP cabins and generous crew quarters.

COUACH 3800 Lounge explorer

WHAT IS IT? The latest in Chantier Naval Couach's Lounge collection of modern explorers.

WHY WE LOVE IT This is adventuring in style. What else would you expect from the French? This 38m has both the robust hull design to handle any seas and villa-like interior styling, with floor-to-ceiling windows and open-plan spaces that will have guests forgetting they are on a yacht. A unique glass door to the beach club makes it a perfect observation room when under way.
