# Columbus Atlantique 43m

Architectural excellence for the modern voyager

Designed by Hot Lab, the Atlantique 43m embodies the concept of «Architecture for Voyagers,» blending sophisticated design with functionality to enhance every moment spent at sea. With a focus on seamless integration with the marine environment, this yacht promises an unparalleled experience for discerning travelers. The Atlantique 43m's striking exterior design features a hull silhouette reminiscent of classic yachts, yet with modern refinements that emphasize

Where Hydro Tec's  
vision and Hot Lab's  
elegance unite.

both style and performance. The stern area, notable for its large panoramic swimming pool, is positioned just 50 cm above the waterline, offering an extraordinary level of interaction with the sea. This innovative design element, combined with the yacht's clean lines and elegant curves, creates a striking visual presence reminiscent of high-end Italian GT cars.

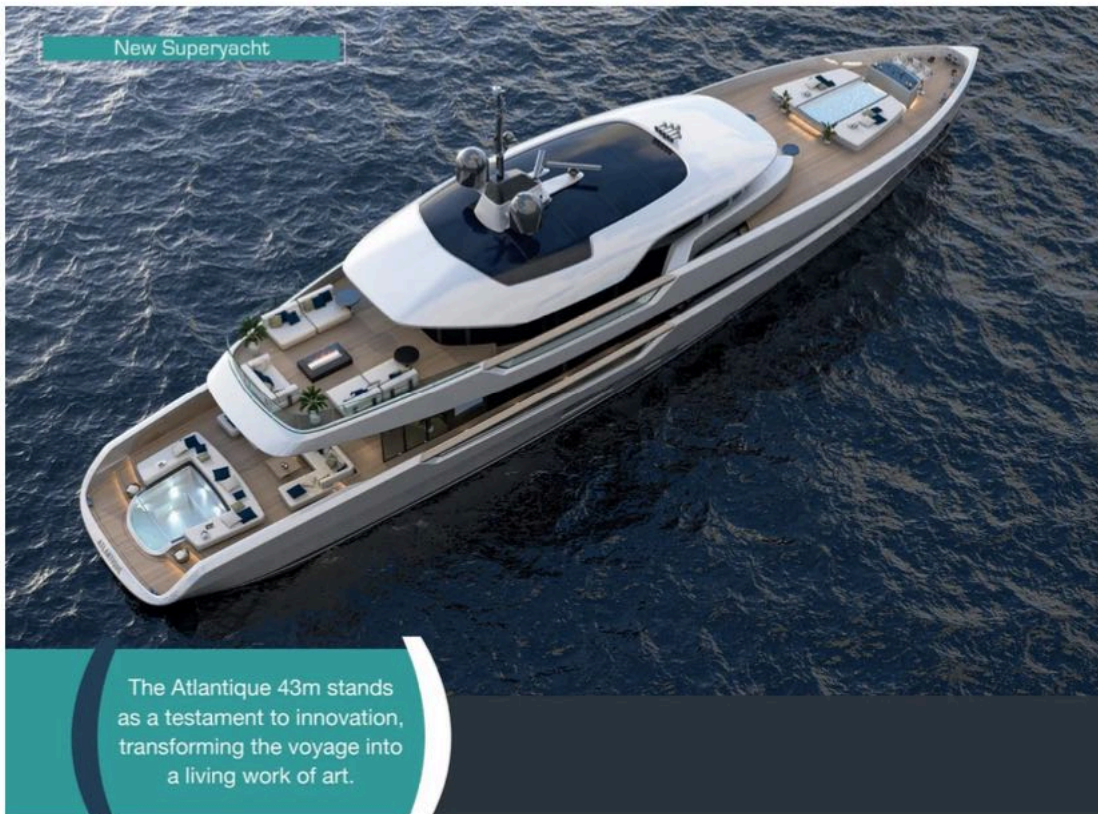

#### Interior Spaces that Define Luxury

Step aboard the Columbus Atlantique 43m, and you are immediately struck by the luxurious interior spaces designed to maximize comfort and connectivity with the surrounding landscape. The main and upper decks feature floor-to-ceiling opening windows that provide uninterrupted views and a seamless indoor-outdoor living experience. The main saloon, located on the main deck, is designed for relaxation and entertainment. It includes two distinct areas: one with a large C-shaped sofa and another designed as a cinema with an 82-inch wall-mounted TV. The option to fully open the sliding windows further enhances the connection with the outdoors. The Atlantique 43m offers two distinct layouts: a five-cabin version with

an expansive sun deck and a six-cabin version with the upper deck reserved exclusively for the owner. In the six-cabin configuration, the upper deck features a private aft terrace accessible only from the owner's suite, ensuring complete privacy. The suite itself is a luxurious retreat, with a king-size bed positioned to take advantage of the 180-degree horizon views, a spacious dressing room, and a well-appointed bathroom with both a tub and a shower. The forward part of the upper deck includes an additional outdoor lounge area and a second swimming pool surrounded by sunpads, providing an ideal space for relaxation and enjoyment.

#### Functional Excellence and Eco-Friendly Innovations

The Columbus Atlantique 43m is as functional as it is beautiful, featuring a highly versatile layout that accommodates both large gatherings and intimate settings. The main deck houses a large dining area with seating for up to 12 guests, positioned to make the most of the stunning views. The indoor-outdoor flow is enhanced by closable «windbreak» side windows and

The Atlantique 43m stands as a testament to innovation, transforming the voyage into a living work of art.

expansive views from the main saloon. Below deck, the yacht offers five cabins in the standard configuration, including two VIP suites, two twin cabins, and a full-beam VIP suite. For the six-cabin version, the owner's cabin is located on the main deck, with four additional cabins below deck. Crew accommodation is also well-considered, with four double cabins on the lower deck, each with its own bathroom. A dedicated staircase leads to a secondary crew area on the main deck, ensuring that crew operations are efficient and discreet. The Atlantique 43m is equipped with two tenders, including a 5.5-meter tender, and a garage that also accommodates two waverunners. In keeping with modern environmental standards, the Columbus Atlantique 43m incorporates several eco-friendly features. These include solar panels, water purifiers, and a low fuel consumption propulsion system, all designed to minimize the yacht's environmental impact while maximizing energy efficiency. In summary, the Columbus Atlantique 43m is a testament to

Columbus Yachts' commitment to blending elegance with functional excellence. Its thoughtful design, luxurious interiors, and innovative features make it a standout choice for those seeking a sophisticated and versatile yacht for their seafaring adventures. ■ ■ ■
